PE-HE

PV COMBINER BOX

DC Combining and Convenient Switch for Solar Pumping System

Solartech PE-HE PV combiner box is made with DC MCBs and is an integral unit which forms part of the PV system installation. It's designed to provide safe connection and disconnection, and protection of PV system. The combiner box is installed between the PV array and inverter.

Model	PE-H3E	PE-H5E
Max Input Voltage	1000V DC	
Max Current per String	15A	
Max Total Current	32A	63A
Max Input Strings	3	5
String Cable Size	2.5~4mm ²	
Output Cable Size	4~10mm ²	6~10mm ²
Dimension	300×200×132mm	
Packing Size	355×255×190mm
